## APSN CFA 2013 Level 1 Study Session Fixed Income Investments: Analysis and Valuation By Sam Gottlieb

This study session presents the foundation for fixed income investments, one of the largest and fastest growing segments of global financial markets. It begins with an introduction to the basic features and characteristics of fixed income securities and the associated risks. The session then builds by describing the primary issuers, sectors, and types of bonds. Finally, the study session concludes with an introduction to yields and spreads and the effect of monetary policy on financial markets. These readings combined are the primary building blocks for mastering the analysis, valuation, and management of fixed income securities.
