

Manufacturing: Design, Production, Automation, and Integration (Manufacturing Engineering and Materials Processing)

By Beno Benhabib

Manufacturing: Design, Production, Automation, and Integration (Manufacturing Engineering and Materials Processing) By Beno Benhabib

From concept development to final production, this comprehensive text thoroughly examines the design, prototyping, and fabrication of engineering products and emphasizes modern developments in system modeling, analysis, and automatic control. This reference details various management strategies, design methodologies, traditional production techniques, and assembly applications for clear illustration of manufacturing engineering technology in the modern age. Considers a variety of methods for product design including axiomatic design, design for X, group technology, and the Taguchi method, as well as modern production techniques including laser-beam machining, microlithography.

Editorial Review

Users Review

From reader reviews:

Thomas Garcia:

People live in this new day of lifestyle always attempt to and must have the extra time or they will get lot of stress from both daily life and work. So, once we ask do people have time, we will say absolutely indeed. People is human not really a huge robot. Then we ask again, what kind of activity do you have when the spare time coming to you actually of course your answer may unlimited right. Then do you ever try this one, reading guides. It can be your alternative with spending your spare time, the actual book you have read will be Manufacturing: Design, Production, Automation, and Integration (Manufacturing Engineering and Materials Processing).

Mary Blackwell:

You can spend your free time to see this book this publication. This Manufacturing: Design, Production, Automation, and Integration (Manufacturing Engineering and Materials Processing) is simple to bring you can read it in the park, in the beach, train as well as soon. If you did not have much space to bring the printed book, you can buy the particular e-book. It is make you much easier to read it. You can save the book in your smart phone. Consequently there are a lot of benefits that you will get when you buy this book.

Carrie Francis:

Don't be worry in case you are afraid that this book will filled the space in your house, you will get it in ebook method, more simple and reachable. This kind of Manufacturing: Design, Production, Automation, and Integration (Manufacturing Engineering and Materials Processing) can give you a lot of buddies because by you investigating this one book you have factor that they don't and make anyone more like an interesting person. This particular book can be one of a step for you to get success. This e-book offer you information that maybe your friend doesn't realize, by knowing more than some other make you to be great men and women. So , why hesitate? Let's have Manufacturing: Design, Production, Automation, and Integration (Manufacturing Engineering and Materials Processing).

Anita Rodriguez:

What is your hobby? Have you heard which question when you got students? We believe that that question was given by teacher for their students. Many kinds of hobby, All people has different hobby. And you also know that little person like reading or as studying become their hobby. You need to know that reading is very important as well as book as to be the thing. Book is important thing to increase you knowledge, except

your current teacher or lecturer. You will find good news or update about something by book. Many kinds of books that can you choose to use be your object. One of them is this Manufacturing: Design, Production, Automation, and Integration (Manufacturing Engineering and Materials Processing).
