Editorial Review

About the Author
Tarun Lalwani is a Test Automation and Solutions Architect and the author of the two most widely read books on QTP, the award-winning 'QuickTest Professional Unplugged' and 'And I Thought I knew QTP!' As well as working on various automated testing projects, he is the Founder of KnowledgeInbox, a company focused on the research and design of Automation products, as well as providing Test Automation services and consultation. Anshoo Arora is a Test Architect and Software Developer, best known for his Test Automation website, www.RelevantCodes.com. He is continuously researching to find better ways of working with QTP, simplifying automation maintenance and creating extensible test suites/frameworks. A regular contributor at AdvancedQTP and SQAForums, he is also the Technical Editor and Reviewer of QuickTest's first conceptual book, 'And I thought I knew QTP!'

Users Review

From reader reviews:

Robert Kuehner:

Spent a free a chance to be fun activity to accomplish! A lot of people spent their spare time with their family, or their particular friends. Usually they undertaking activity like watching television, likely to beach, or picnic from the park. They actually doing same thing every week. Do you feel it? Do you wish to something different to fill your personal free time/ holiday? Could possibly be reading a book might be option to fill your free of charge time/ holiday. The first thing you will ask may be what kinds of e-book that you should read. If you want to attempt look for book, may be the guide untitled QTP Descriptive Programming Unplugged: Master Object Identification Techniques can be fine book to read. May be it can be best activity to you.

Lonnie Hammer:

This QTP Descriptive Programming Unplugged: Master Object Identification Techniques is great reserve for you because the content and that is full of information for you who else always deal with world and have to make decision every minute. That book reveal it info accurately using great coordinate word or we can point out no rambling sentences inside it. So if you are read it hurriedly you can have whole facts in it. Doesn't mean it only gives you straight forward sentences but hard core information with lovely delivering sentences. Having QTP Descriptive Programming Unplugged: Master Object Identification Techniques in your hand like finding the world in your arm, facts in it is not ridiculous just one. We can say that no guide that offer you world within ten or fifteen moment right but this guide already do that. So , this can be good reading book. Hey Mr. and Mrs. active do you still doubt in which?

Nick Peoples:

Beside this particular QTP Descriptive Programming Unplugged: Master Object Identification Techniques in

your phone, it may give you a way to get more close to the new knowledge or data. The information and the knowledge you might got here is fresh from oven so don't always be worry if you feel like an aged people live in narrow town. It is good thing to have QTP Descriptive Programming Unplugged: Master Object Identification Techniques because this book offers to your account readable information. Do you sometimes have book but you would not get what it's all about. Oh come on, that will not happen if you have this with your hand. The Enjoyable set up here cannot be questionable, just like treasuring beautiful island. Techniques you still want to miss that? Find this book and also read it from currently!

Carl Fox:

Is it a person who having spare time in that case spend it whole day by watching television programs or just laying on the bed? Do you need something new? This QTP Descriptive Programming Unplugged: Master Object Identification Techniques can be the solution, oh how comes? It's a book you know. You are thus out of date, spending your free time by reading in this completely new era is common not a nerd activity. So what these ebooks have than the others?
