The Chinese State, Oil and Energy Security (International Political Economy Series) By M. Taylor

Monique Taylor analyses the policy rationale and institutional underpinnings of China's state-led or neomercantilist oil strategy, and its development, set against the wider context of economic transformation as the country transitions from a centrally planned to market economy.

Editorial Review

Review

“Taylor’s study is a good point of departure for analysing the actions of China’s oil companies in the context of future developments in the global oil sector. ... provide students of contemporary China, international relations scholars, and people with a general interest in global affairs with a good overview of the various facets of China’s rise and help them reflect on the government’s vision and goals which China’s propaganda machinery will be inclined to disseminate in the future.” (Susann Handke, *China Information*, Vol. 23 (3), November, 2015)

“In this book, Monique Taylor has provided a thoughtful and refreshing analysis of China’s oil industry that should be read by students, scholars and policy analysts interested in the governance of this country. The line of argument is well-founded and convincing.” (Philip Andrews-Speed, *China Quarterly Review*, Vol. 222, June, 2015)

About the Author

Monique Taylor is a Postdoctoral Fellow in the China and Globalization Research Cluster and Public Policy and Global Affairs Programme, School of Humanities and Social Sciences at Nanyang Technological University, Singapore. Previously she was a lecturer in the School of Political Science and International Studies at the University of Queensland, Australia.

Users Review

From reader reviews:

Richard Smith:

Book is written, printed, or created for everything. You can learn everything you want by a book. Book has a different type. As it is known to us that book is important matter to bring us around the world. Next to that you can your reading talent was fluently. Roderick Grubb:

Reading a book to be new life style in this year; every people loves to study a book. When you study a book you can get a wide range of benefit. When you read publications, you can improve your knowledge, since book has a lot of information upon it. The information that you will get depend on what kinds of book that you have read. If you would like get information about your examine, you can read education books, but if you act like you want to entertain yourself read a fiction books, these us novel, comics, and soon. The The Chinese State, Oil and Energy Security (International Political Economy Series) will give you new experience in studying a book.

Robert Dougherty:

As a pupil exactly feel bored for you to reading. If their teacher inquired them to go to the library as well as to make summary for some reserve, they are complained. Just tiny students that has reading's heart and soul or real their leisure activity. They just do what the instructor want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that reading is not important, boring and also can't see colorful pics on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this The Chinese State, Oil and Energy Security (International Political Economy Series) can make you feel more interested to read.
