Strategy for Sustainability: A Business Manifesto By Adam Werbach

The definitive work on business strategy for sustainability by the most authoritative voice in the conversation.

More than ever before, consumers, employees, and investors share a common purpose and a passion for companies that do well by doing good. So any strategy without sustainability at its core is just plain irresponsible - bad for business, bad for shareholders, bad for the environment. These challenges represent unprecedented opportunities for big brands - such as Clorox, Dell, Toyota, Procter & Gamble, Nike, and Wal-Mart - that are implementing *integral*, rather than tangential, strategies for sustainability. What these companies are doing illuminates the book's practical framework for change, which involves engaging employees, using transparency as a business tool, and reaping the rewards of a networked organizational structure.

Leave your quaint notions of corporate social responsibility and environmentalism behind. Werbach is starting a whole new dialogue around sustainability of enterprise and life as we know it in organizations and individuals. Sustainability is now a true *competitive* strategic advantage, and building it into the core of your business is the only means to ensure that your company - and your world - will survive.

Editorial Review

Review

...a smart book about creating a workable sustainability plan for your organization. --Associations Now, June 2009

...useful and refreshingly nondoctrinaire book...tells vivid and interlocked stories that stick in the brain. --Stanford Social Innovation Review, Summer 2009

About the Author

Adam Werbach is Global CEO of Saatchi & Saatchi. He was the youngest-ever (at age twenty-three years) National President of the Sierra Club at and is the author of the widely circulated speech, "Is Environmentalism Dead?"

Users Review

From reader reviews:

Stacey Smith:

People live in this new moment of lifestyle always aim to and must have the spare time or they will get lot of stress from both day to day life and work. So , whenever we ask do people have spare time, we will say absolutely of course. People is human not really a robot. Then we question again, what kind of activity do you possess when the spare time coming to you actually of course your answer will probably unlimited right. Then do you try this one, reading publications. It can be your alternative in spending your spare time, the book you have read is definitely Strategy for Sustainability: A Business Manifesto.
