Linux Operations and Administration By Alfred Basta, Dustin A. Finamore, Nadine Basta, Serge Palladino

LINUX OPERATIONS AND ADMINISTRATION introduces readers to Linux operations and system administration through a unified installation, using virtual machines. This text is more effective than those that take a professional approach because it eliminates confusion from working with differing hardware configurations, while allowing users to test interoperability between Linux and Windows. Detailed, yet reader-friendly, Linux Operations and Administration makes it easy to learn Linux and practice it with helpful in-text features like learning objectives and key terms, as well as items for self assessment such as review questions, hands-on activities, and case projects.

Editorial Review

About the Author

Alfred Basta, PhD, is a professor of mathematics, cryptography, and information security as well as a professional speaker on topics in Internet security, networking, and cryptography. He is a member of many associations including the Mathematical Association of America. Dr. Basta's other publications include MATHEMATICS FOR INFORMATION TECHNOLOGY, LINUX OPERATIONS AND ADMINISTRATION, and DATABASE SECURITY.

Dustin A. Finamore has 14 years of experience with the United States Air Force (USAF), where he developed and taught UNIX security and UNIX advanced administration courses. As an airman, he installed, configured, and maintained intelligence computer systems worldwide. He is a graduate of Bellevue University and is currently an instructor at Virginia College, where he teaches Linux courses, among others.

Nadine Basta, MS, is a professor of computer science, information technology, and security. Her numerous certifications include MCSE, MSDBA, CCDP, NCSE, NCTE, and CCA. A security consultant and auditor, she combines strong "in the field" experience with her academic background. She is also coauthor of MATHEMATICS FOR INFORMATION TECHNOLOGY and LINUX OPERATIONS AND ADMINISTRATION.

Users Review

From reader reviews:

Shirley Arrington:

Now a day individuals who Living in the era exactly where everything reachable by interact with the internet and the resources inside can be true or not demand people to be aware of each facts they get. How individuals to be smart in getting any information nowadays? Of course the solution is reading a book. Reading through a book can help men and women out of this uncertainty Information mainly this Linux Operations and Administration book since this book offers you rich information and knowledge. Of course the info in this book hundred pct guarantees there is no doubt in it you know.

Michael Becker:

Do you have something that you prefer such as book? The guide lovers usually prefer to pick book like comic, limited story and the biggest an example may be novel. Now, why not seeking Linux Operations and Administration that give your fun preference will be satisfied simply by reading this book. Reading habit all over the world can be said as the oppotunity for people to know world much better then how they react toward the world. It can't be mentioned constantly that reading behavior only for the geeky person but for all of you who wants to be success person. So , for every you who want to start studying as your good habit, it is possible to pick Linux Operations and Administration become your own personal starter.

Jamie Gregory:

Many people spending their time by playing outside having friends, fun activity with family or just watching TV the entire day. You can have new activity to enjoy your whole day by examining a book. Ugh, ya think reading a book will surely hard because you have to take the book everywhere? It okay you can have the e-book, having everywhere you want in your Smart phone. Like Linux Operations and Administration which is finding the e-book version. So , why not try out this book? Let's observe.

Karen Garcia:

What is your hobby? Have you heard that will question when you got learners? We believe that that query was given by teacher with their students. Many kinds of hobby, Everyone has different hobby. And also you know that little person including reading or as looking at become their hobby. You have to know that reading is very important and book as to be the matter. Book is important thing to increase you knowledge, except your personal teacher or lecturer. You get good news or update regarding something by book. Many kinds of books that can you take to be your object. One of them is niagra Linux Operations and Administration.
