The Case for Palestine: An International Law Perspective By John Quigley

John Quigley brings a necessary international law perspective to bear on the seemingly intractable Israeli-Palestinian conflict in this updated edition of his important book. Since 2000, the cycle of bloodshed and retribution has spiraled increasingly out of control. Quigley attributes the breakdown of negotiations in 2000 to Israel's unwillingness to negotiate on the basis of principles of justice and law. He argues that throughout the last century, established tenets of international law—and particularly the right of self-determination—have been overlooked or ignored in favor of the Zionists and then the Israelis, to the detriment of the Palestinians.

In this volume, Quigley provides a thorough understanding of both sides of the conflict in the context of international law. He contends that the Palestinians have a stronger legal claim to Jerusalem than do the Israelis; that Palestinian refugees should be repatriated to areas including those within the borders of Israel; and that Israel should withdraw from the territory it occupied in 1967. As in his earlier volume, Quigley provides an extensively documented evaluation of the conflict over the last century, discussing the Zionist movement, the League of Nations' decision to promote a Jewish homeland in Palestine, the 1948 war and creation of Israel, and Israel's occupation of the West Bank, Gaza Strip, and Golan Heights during the 1967 war.

Editorial Review

Review

“In this new edition of his classic *Palestine and Israel*, John Quigley succinctly yet thoroughly covers developments since the first Gulf War of 1991. He shows that by excluding the United Nations and insisting on bilateral peace negotiations between Israel and the Palestinians, Washington diluted the principles of international law—to the ultimate detriment of the parties themselves and of the international community as a whole.”—Richard H. Curtiss, executive editor, *Washington Report on Middle East Affairs*

“This masterful book comes at a most critical time in the history of the Israeli-Palestinian conflict and of American foreign policy towards the Middle East. It sets forth essential information on the international legal and human rights principles applicable to the Israeli-Palestinian conflict and their relevance to the production of a comprehensive Middle East peace settlement between Israel and Palestine as well as between Israel and the surrounding Arab States. Indeed, there is no way anyone can even begin to comprehend the Israeli-Palestinian conflict and how to resolve it without developing a basic working knowledge of the principles of international law and human rights related thereto. By the end of this book, the reader should be in an excellent position to go out and work for peace with justice for all peoples and states in the Middle East.”—Professor Francis A. Boyle, legal adviser to the Palestinian delegation to the Middle East peace negotiations (1991–93) and to the Syrian delegation during the first round of the Middle East peace negotiations (1991)

"*The Case for Palestine* is a concise, well written book with invaluable summary of historical background for the Palestinian-Israeli conflict. John Quigley's dispassionate analysis and presentation of unbiased historical facts from credible sources overwhelmingly serves to educate and inform any reader. . . . [It] should be considered a must read for all those interested in a comprehensive overview of the legal issues surrounding this conflict and for all those interested in bringing about a long-lasting, durable peace and justice in the holy land."

(Ghaleb Darabya *International Third World Studies Journal and Review*)

"[O]ne of the best book-length summaries currently available of the historical case for the establishment of an independent and viable Palestinian state. As a primer on what Palestinians understand the historical reality over the past century to have been, there is today no better guide than John Quigley's updated and revised version of his first edition. . . . This volume should be included on all academic reading lists dealing with the Israeli-Palestinian question. . . . Especially now, *The Case for Palestine* is worth the attention of US government officials engaged in the Israeli-Palestinian peace process. Quigley is to be commended for having compressed the work of a lifetime into this short, accessible, and copiously documented book."

(Antony T. Sullivan, *Law & Politics Book Review*)

From the Back Cover

"In this new edition of his classic "Palestine and Israel," John Quigley succinctly yet thoroughly covers developments since the first Gulf War of 1991. He shows that by excluding the United Nations and insisting on bilateral peace negotiations between Israel and the Palestinians, Washington diluted the principles of international law--to the ultimate detriment of the parties themselves and of the international community as a

whole."--Richard H. Curtiss, executive editor, "Washington Report on Middle East Affairs"
