Foundations of Forensic Vocational Rehabilitation From Springer Publishing Company

[L]ikely to be attractive and helpful to experienced occupational therapists practicing in the vocational rehabilitation field, and particularly those who combine this with medico-legal work. The book's style is such that it is accessible yet detailed... If you are an occupational therapist working in the tribunal or medico-legal systems, as well as vocational rehabilitation, then this book would be a useful accompaniment to your practice." -- **Jain Holmes, British Journal of Occupational Therapy**

Bluntly, Robinson's text offers one of the most important contributions to the field of vocational rehabilitation over the last decade...Robinson and colleagues have created a classic for the field of Rehabilitation Counseling. The book is not sensationalistic, offering a slanted view from a defense or plaintiff perspective, but rather presents information from a non-biased viewpoint. This is the type of book that could be purchased during graduate school and used as a reference point for the practicing professional throughout their career."--**The Rehabilitation Professional**

Whether you are new to the field of forensic vocational rehabilitation or a seasoned expert, this text will be an invaluable resource for your library and one that you will use throughout your professional career."--**Journal of Forensic Vocational Analysis**

The book presents various earning capacity models and explores models of disability and approaches to determining the extent of work disability. There are interesting chapters on job analysis, labor market survey and labor market information, along with an introduction to the U.S. legal system... The book also considers professional standards and ethical issues. Numerous tables and figures help clarify the content and the book is well referenced... This book presents both theoretical and practical information, making it useful for novice clinicians as well as seasoned veterans." Score: 95, 4 Stars.--**Doody's Medical Reviews**

This is the first fundamental text to focus specifically on forensic vocational rehabilitation, a field that is forecast to grow rapidly. Forensic vocational

rehabilitation consultants evaluate the vocational and rehabilitation needs of individuals in an array of legal settings such as civil litigation, workers' compensation, Social Security disability, and others. The text is unique in its exploration of the vocational rehabilitation process from a biopsychosocial perspective that views disability as a complex and multidimensional construct. The book comprehensively describes the parameters and theoretical issues of relevance in evaluating and developing opinions in forensically oriented matters. It culls and synthesizes current peer-reviewed literature and research on this private subspecialty practice area of rehabilitation counseling, including theories, models, methods, procedures, and fundamental tenets of the field. Also included is current information about the labor market, life care planning, and professional identity, standards, and ethics.

The text is designed for graduate and postgraduate students in rehabilitation counseling and psychology as well as practicing forensic vocational rehabilitation consultants and professionals moving toward practice in this arena. Chapters are authored by noted scholars or published practitioners in each subject area, and include an introduction to the content area, discussion of key terminology and concepts, and a review of the current and historical literature, with emphasis toward future research needs and evidence-based practice. The book fulfills the requirement by the Commission on Rehabilitation Education (CORE) for training in this subject area at the graduate level for new certification or certification maintenance.

Key Features:

- Comprises the only foundational text to focus specifically on forensic vocational rehabilitation
- Synthesizes peer-reviewed research into one authoritative source
- Describes the role, function, and scope of practice of the rehabilitation counselor in private forensic vocational rehabilitation practice
- Fulfills CORE requirements for certification

Editorial Review

About the Author

Rick Robinson, PhD, is president of Robinson Work Rehabilitation Services, Co., a private vocational and rehabilitation counseling consulting firm in Jacksonville, FL, USA. Dr. Robinson has over 15 years' experience working in various vocational and disability related settings. His private practice is focused on career and vocational counselling, vocational evaluation, career planning and guidance. He also provides expert witness and litigation support services in civil and administrative law settings that are focused on evaluation of vocational disability, employability, residual earning capacity, and life care planning. Dr. Robinson is nationally credentialed in rehabilitation counselling, vocational evaluation, and life care planning; licensed by the state of Florida as a Mental Health Counselor; board certified by the National Board for Certified Counselors; and has qualified for Diplomate status by the American Board of Vocational Experts. He is a faculty lecturer for the University of Florida, College of Public Health and Health Professions and is the lead instructor for the University of Florida's post-graduate program in forensic vocational rehabilitation. His research interests are focused on forensic rehabilitation analysis, methodologies, and models. Dr. Robinson serves on the International Board of Directors and the Forensic Section Board of Directors for the International Association of Rehabilitation Professionals (IARP), and serves on the Board of Directors for the Academy of Forensic Rehabilitation Research (AFRR).

Users Review

From reader reviews:

Linda Poteat:

Throughout other case, little men and women like to read book Foundations of Forensic Vocational Rehabilitation. You can choose the best book if you like reading a book. Provided that we know about how is important a new book Foundations of Forensic Vocational Rehabilitation. You can add know-how and of course you can around the world by just a book. Absolutely right, simply because from book you can understand everything! From your country until eventually foreign or abroad you will find yourself known. About simple thing until wonderful thing you can know that. In this era, you can open a book or perhaps searching by internet device. It is called e-book. You should use it when you feel bored stiff to go to the library. Let's go through.

Ismael Roop:

What do you about book? It is not important with you? Or just adding material if you want something to explain what the one you have problem? How about your spare time? Or are you busy individual? If you don't have spare time to accomplish others business, it is gives you the sense of being bored faster. And you have free time? What did you do? All people has many questions above. They need to answer that question because just their can do that will. It said that about e-book. Book is familiar in each person. Yes, it is proper. Because start from on guardería until university need this particular Foundations of Forensic Vocational Rehabilitation to read.
