Bubble World By Carol Snow

Freesia Summers lives on the island of Agalinas, a hidden Pacific paradise somewhere off the coast of California. She has everything a girl could want: her own ocean-view balcony, a pink itty car, singing peacocks, and a magical bubble that lets her talk to her besties and keep track of her de-vicious clothes.

If Freesia's life seems too good to be true, well, there's a reason for that. And when a blackout lands her in an unbeautiful place -- and in an equally unbeautiful but oddly familiar body -- reality hits her head-on. Freesia is not who she thought she was, and her world will never be the same. Reality, in her opinion, is hugely overrated.

Editorial Review

From School Library Journal

Gr 7-10—Although *Bubble World* seems like the perfect place for a teenage girl to find true happiness, the virtual-reality environment has its faults. As cracks in the cyber design start to show and Freesia begins to learn more about this seemingly flawless paradise, she must grapple with issues of reality versus perfection. Should she live in a place where everything is delightfully “de-vicious” or face the tough but beautiful experience of real life? Themes of privacy, beauty, free speech, and education are explored in a subtle, effective way. The quick pacing will propel readers forward, and a few nicely placed plot twists will keep them satisfied. Readers who enjoyed Libba Bray's *Beauty Queens* (Scholastic, 2011) will relish Snow's sarcastic wit, and fans of Neal Shusterman's “Unwind Dystology” series (S & S) will recognize an alternate world in which parents have exclusive rights over the lives of their children. Teens will enjoy following Freesia in this humorous sci-fi novel.—Carrie Shaurette, Dwight-Englewood School, Englewood, NJα(c) Copyright 2013. Freesia lives a carefree, candy-colored life in Avalon, where she is awoken every day by a pair of pop-song-singing peacocks. She clothes her perfect body in the latest fashions selected from her gigantic closet and takes classes like Foundations in Foundation—when she is not shopping and partying, that is. Sound too good to be true? You are right; actually, she has spent the last three years in a bubble pod attending virtual reality “school,” and her existence is shockingly less glamorous than she thought. Snow (Snap, 2009) nestles a powerful message about bravery, self-confidence, and integrity in the midst of fluffy, irreverent talk of fashion and teen idols and a virtual world at the crossroads of *The Matrix* and Barbie’s Dreamhouse. Grades 7-10. --Sarah Hunter

Review

"Freesia lives on a seemingly magical island where every whim is answered in this nifty sci-fi comedy . . . Freesia's plenty spunky, and so is this hilarious book." -*Kirkus Reviews*
