The World of Tiers, Volume 1 and Volume 2 (Tiers) By Philip José Farmer

The World of Tiers is a series of science fiction novels by American writer Philip José Farmer. They are set within a series of artificially-constructed universes, created and ruled by decadent beings who are genetically identical to humans, but who regard themselves as superior, the inheritors of an advanced technology they no longer understand. This technology enables the "Lords" (or Thoans, in their own language) to create novel life forms, and also to prevent aging or disease, making them effectively immortal. Their technology also allows them to create small artificial universes, and the planets and stars within them, and modify the physical laws (e.g. changing the behavior of gravity) to create unusual or interesting phenomena within these universes. Instantaneous travel within and between these universes is achieved by the use of gates which seem to function as teleportation devices, or as a means of creating wormholes between different regions of spacetime. The overall series title comes from the main 'pocket universe' featured in the books. This consists of a single planet with a green sky, shaped in the form of a huge stepped pyramid on five stages, with each stage being a disk or squat cylinder. A small sun and a single moon orbit around this planet. There are no other stars or astronomical bodies. This world was created by a Lord named Jadawin. The overall storyline of the series follows the adventures of two people from Earth who independently discover gates into the World of Tiers. The earlier books focus on the character of Robert Wolff as he explores this world and tries to discover its secrets. From the third book onwards the action shifts to Paul Janus Finnegan (known as Kickaha, along with many other aliases), who is drawn into a battle between an ancient enemy of the Thoans, and ultimately into the feuds between rival Thoans as they try to take over each other's universes.
